

CENTRAL CASTING

Using OHI's Central Casting is like hiring a new staff member but one who actually adds significantly to our financial growth.

- Dr. Samir S. Vakil

Your colleagues are recommending Central Casting. Here's why...

It's never been more challenging for practices large and small to provide optimal time and care to patients. That's why we created Central Casting.

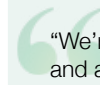

Central Casting places expert, highly trained professionals right into the practice leading to enhanced services, improved patient outcomes, restored practice efficiencies and greater patient satisfaction – all resulting in increased practice revenue.

But don't take our word for it. Read more of what your colleagues are saying about Central Casting...

"I've recently incorporated the OHI C.Ped program into my practice and couldn't be happier with the results. This program is a true practice builder and it's enabled me to provide more comprehensive care for my patients...I highly recommend it."

- Dr. Kyle Vaughn, Paradise Valley, AZ

"We're a large practice with 4 DPMs and as our volume has grown, we've struggled to spend appropriate time with each patient. Using OHI's Central Casting is like hiring a new staff member but one who actually adds significantly to our financial growth."

- Dr. Samir S. Vakil, Punta Gorda, FL

"I'm a solo practitioner with a relatively small practice and wasn't sure I was seeing enough cases per month to make the on-site C.Ped service worthwhile. I shouldn't have worried. I've been using OHI's Central Casting since January and it's been a fantastic experience."

- Dr. Brandon Macy, Clark, NJ

"OHI's Central Casting represents a natural evolution to the services we perform for our patients. We can now offer uniquely qualified biomechanical solutions to the most complex problems we see."

- Dr. Ricardo Reyes, Hialeah, FL

"The Central Casting Program has been extremely beneficial for my patients and practice alike. Bridging an on-call C.Ped with the Moore Balance Brace has been especially impactful...My staff and I have complete confidence that casting and fitting of the brace is accomplished with utmost skill and our volume of AFOs and shoes has sky-rocketed."

- Dr. Howard Dinowitz, Brooklyn, NY

"I absolutely love this program. We have struggled for a long time providing the correct shoe for our patients. It's difficult for our staff to know which shoes would be the best fit. Our C.Ped now provides this service for us and our fit rates have improved dramatically."

- Dr. Suzan Campbell, Westfield, NJ
