

This offer is only for Top Practices Practice Management Institute Members who are also TRAKnet® users and it expires on June 30th, 2016.

Yes! I'm ready to know more than any other medical practice in the United States and prepare effectively and profitably for the changes that are coming!

Sign me up for the new Gold Virtual Practice Management Institute!

My combined membership will be the special price of \$399/month, which includes:

1. My personal Virtual Practice Optimization Analysis each month which compares me in every category to my peers.
2. Coaching by Dr. Guiliana and his team of experts on what everything means and how to implement the strategies I need to optimize my practice for success in the new Value Based Medicine models in which I will be practicing.
3. Continued Full Access to the Practice Management Institute and its coaching and mentoring with Dr. Peter Wishnie, Tina Del Buono, and other experts.

All for only \$399/month. This low monthly price includes everything, and is guaranteed not to increase for at least two years. There is a minimum period of 4 months that I must maintain my membership to ensure I really understand my data. After that I may cancel or modify my membership at any time. I may forfeit my lower price in the future if I do cancel.
